

PERFORMANCE RUNS IN THE FAMILY.

A Choice of Models Delivers
the Full Power of Digital.

Digital Made Affordable: The DRX Core Detector

The DRX Core lets you say goodbye to film or CR, gaining the benefits only DR can provide, without breaking your budget. The DRX Core includes:

- The ability to upgrade your existing systems without the high cost of equipment replacement.
- The superb image quality of full digital.
- Wireless connectivity (optional) to eliminate the hassles and hazards of cables and reduce the risk of infection.
- IPX 44 water-resistance rating, for enhanced reliability.
- Beam-detect mode, for cable-free, automatic capture activation.
- Carbon-fiber twill panel for improved handling.
- Detector-status LED indicators.

Top-of-the-Line Performance: The DRX Plus Detector

Our DRX Plus delivers the power of X-Factor thinking in a thinner, lighter design for easier handling. In addition to all DRX Core features, the DRX Plus also offers:

- The ability to share detectors between any DR room or DR mobile system.
- Standard wireless connectivity to eliminate the hassles and hazards of cables and reduce the risk of infection.
- The power to upgrade virtually any manufacturer's system to DR
- IPX 57 water-resistance rating for superb reliability – submersible in up to a meter of water without failure.
- Battery hot-swap and a separate charger, allowing the detector to be used while a spare battery is being charged.

Powerful Performance in a Smaller Package: The DRX 2530C Detector

The DRX 2530C delivers the power of X-Factor thinking in a smaller-format design, delivering:

- Fast, easy positioning in pediatric incubator trays.
- A Cesium iodide (CsI) scintillator for dose-sensitive pediatric applications.
- Compatibility with the DRX-Revolution small-format detector holder.
- Faster orthopaedic tabletop imaging due to its easy handling.
- An ergonomically designed handle for fast and safe positioning.
- Full compatibility with the same DRX battery charger.

NO MATTER WHICH ROAD YOU'RE ON,
WE'LL GET YOU WHERE
YOU NEED TO GO.

RIGHT FOR TODAY.
READY FOR TOMORROW.

Right for Today. Ready for Tomorrow.

Carestream is ready to help you plan the most effective route to your X-ray imaging future. Our scalable equipment design and modular components mean high performance today, along with easy, affordable upgrades for years to come.

Let's plan your equipment migration together – you'll gain the confidence that your current technology investment will continue to pay dividends well into your future.

Protect Against Drops and Other Damage.

All DRX Detectors are eligible for coverage under the DRX Accident Protection Plan. It can be added to your standard Carestream DRX Warranty or Service Agreement, providing replacement of your detector at a fraction of the full cost, should damage occur during normal clinical use. For you, this means peace-of-mind, one-call resolution and fast replacement.

A Community of Service and Support

For dependable service, look to our Customer Success Network.

We work continuously to improve your imaging performance, help you to innovate as needs change, and make the most of your budget and resources. Carestream's Customer Success Network surrounds you with a dynamic team of experts, with a Single Point of Entry for easy, customized access to the right people in every situation. You and your patients will benefit from the expertise and best practices only Carestream can deliver – based on thousands of customer engagements worldwide and our 100-year heritage in medical-imaging innovation.
