Prestige Medical Imaging Expands Its Product Portfolio by Partnering With Esaote and Glassbeam

NEWBURGH, NY – February, 2019 – Prestige Medical Imaging (PMI) the largest independent provider of digital imaging technology and services for medical facilities, is pleased to announce the expansion of their product portfolio to include; Analytics Software Solutions, Ultrasound and MRI Systems, through their new partnerships with Esaote and Glassbeam.

"Our customers have asked for Ultrasound, MRI and Analytic solutions, and we selected Esaote and Glassbeam after an extensive market analysis and product review process. These solutions were in high demand by our customers and we were actively working to add them to our product portfolio," said Bill Haussmann, CEO for Prestige Medical Imaging.

Esaote is a world leader in the manufacture of diagnostic ultrasound systems and probes. These products along with dedicated MRI and software for managing the diagnostic process have been on the market for more than 30 years. "Esaote has shown itself as a real trailblazer with its Ultrasound and MRI systems. Partnering with them to expand our portfolio is a significant step for PMI, which results in even better products for our customers," added Bill Haussmann.

Glassbeam is the premier machine data analytics company, bringing structure and meaning to complex data generated from any connected machine in the Industrial IoT with a strong focus on medical and data center equipment. Glassbeam's next generation cloud-based platform is designed to transform, analyze, and build Artificial Intelligence applications from multi-structured logs and delivering powerful solutions. "With the Glassbeam partnership, we're able to expand our software offerings to our clients, Glassbeam machine data analytics solution is a game changer for the healthcare market. This software provides enhanced analytics to view device uptime and utilization reports and improving the patient experience through increased uptime."
